Community Asset Transfer

The Community Asset Transfer programme aims to help communities become stronger and more sustainable by assisting them to obtain and develop assets such as land or buildings.

The CAT programme is a strategic programme focused on enabling communities to have more control and influence over their future. Through the CAT programme, BIG will invest up to £13 million in communities to help them transfer, develop, manage, and sustain assets to improve their livelihoods and neighbourhoods.

Assets should be used to generate income streams and provide quality services and amenities that are economically, socially and environmentally viable and sustainable in the long-term.
