7.4.4 Welsh Assembly Government grant funding

Overview

The Welsh Assembly Government offers a wide range of grants to organisations across Wales such as local authorities, Community Safety Partnerships and the voluntary sector. The grants are used to deliver services that meet the needs of the public in Wales, such as improving housing, reducing homelessness, promoting community safety and regenerating areas of deprivation.

This information sheet contains details of the grant schemes offered by the Welsh Assembly Government either directly or, via independent bodies. There is a brief summary of each scheme and contact details.

The Aggregates Levy Sustainability Fund for Wales

The Aggregates Levy was introduced by the Finance Act 2001, which came into effect in April 2002. Part of the money generated by the Levy has been used to set up a Sustainability Fund to address the environmental costs associated with aggregate extraction. In Wales, the Fund is used to address issues specific to Wales:

- Legacy of old minerals permissions.
- Promoting the use of alternative materials to aggregates.

- Reducing the impact of aggregate extraction.
- Environmental and amenity benefits to communities affected by aggregate extraction.
- Conserving sites of special interest.
- Educational projects.

Funding is available for projects that address the above issues and meet the criteria set out in the information packs. Potential applicants are advised to discuss proposed projects prior to submitting an application.

This could include the erection of plaques, which assist with the presentation of historic structures, improve public appreciation of the historic environment or promote visitor information.

The scheme is of particular relevance to civic societies who will need to contribute match funding.

ENTRUST

Landfill Tax Credit Scheme (LTCS)

Whilst not strictly Government-funded, this grant scheme permits landfill operators to support a wide range of environmental projects by giving them a 90% tax credit against their donations to environmental projects. Landfill tax credits must be spent in compliance with the landfill tax regulations. HM Revenue and Customs have announced that the Landfill Tax Credit Scheme is changing its name to the Landfill Communities Fund.

ENTRUST does not fund any works within the LTCS. ENTRUST's role is strictly regulatory and they cannot

compel any landfill operator to fund a particular project.

It is, however, charged with enrolling, monitoring and auditing organisations that have enrolled with ENTRUST as Environmental Bodies. These distributive bodies help other groups access landfill tax credits.

There are a number of routes to accessing funding. Organisations do not need to be charitable although they must be non-profit distributing and any surplus must be used to further fund your organisation's objectives.

Environment Wales

Environment Wales aims to protect and improve the environment in Wales by supporting voluntary action which contributes to sustainable development. The Initiative has been running since April 1992.

The Environment Wales Initiative is administered by the Wales Council for Voluntary Action (WCVA) on behalf of the Welsh Assembly Government.

The initiative's objectives are to:

- Achieve sustainable improvements to the Welsh environment through practical projects.
- Increase understanding of sustainable development and the

environment through information, education and advisory services.

- Help create new environmental initiatives which also allow communities and voluntary organisations to contribute to their social and economic needs.
- To support and train staff and volunteers engaged in these activities.

Projects given priority are generally those:

- Which are innovative or collaborative, particularly those which amplify sustainable development and could be used as a model elsewhere.
- Which encourage and support the participation of communities in Local Agenda 21.
- Where the grant would raise the quality of work and achieve greater benefits for the environment.
- Where the grant may increase the potential to raise income through a project
- Which are able to attract support from other sources.

Wales Council for Voluntary Action (WCVA)

WCVA administers a number of grant schemes on behalf of the Welsh Assembly Government.

Members of WCVA receive funding information as part of the fortnightly *e-briefing*, or by signing up for WCVA's free e-membership you can receive the fortnightly *Funding news* bulletin. There is also funding information in the Communities First Support Network (CFSN) *e-bulletin*, which WCVA circulates monthly on behalf of CFSN.

Communities First Trust Fund

Communities First is a Welsh Assembly Government regeneration programme targeting the most deprived communities in Wales. The Trust Fund, an initiative of the Communities First Support Network (CFSN), provides small grants for groups in Communities First areas for any type of activity that involves local people through community-led organisations. The fund, administered by WCVA, is aimed at supporting activities that provide economic, environmental, social or cultural benefit for people.

Communities Investment Fund

As part of CFSN the Communities Investment Fund was launched by WCVA in collaboration with its project partners, Development Trusts

Association Wales and Wales Co-operative Centre, to make long term investments through a flexible loan funding package. This is supported by development grant assistance which is aimed at helping organisations towards loan readiness.

The Fund will help build the sustainability of independent community-based voluntary social enterprises and organisations located in Communities First areas within Objective One areas which are unable to raise sufficient funding from more conventional sources. This is a key strand in the Welsh Assembly Government's programme to address social exclusion, and will be achieved by helping to develop business capacity to generate income, by raising the level of business skills in managing assets successfully, and by encouraging the running of good quality business operations.

Millennium Volunteers is an UK wide programme for young people who are interested or involved in volunteering. The purpose of the programme is to promote and recognise a sustained commitment by young people aged 16-24 to voluntary activity which makes a clear impact on the community.

In Wales the programme is managed by the MV Advisory Panel, a partnership between WCVA and the Council for Wales Voluntary Youth Service

(CWVYS). Applications can be made for sums £50 to £7,000 to cover volunteers' costs. There is no restriction on the number of applications that can be made. Applications from youth-led projects can be approved very quickly through a fast track system. The advisory panel meets four times per year.

Volunteering in Wales Fund

The Volunteering in Wales Fund (VIWF) is administered by the Wales Council for Voluntary Action (WCVA) on behalf of the Welsh Assembly Government. Funds are made available for the promotion of volunteering in Wales, particularly involving unemployed people, in the fields of health and social welfare.

The aim of the fund is to:

- Support Welsh projects whose aims are mainly achieved by volunteer effort and support.
- Support not-for-profit organisations whose primary purpose in seeking grant support is to recruit, train and place volunteers.
- Encourage good standards and practice in volunteering.

- Support those people at risk of social exclusion through the medium of volunteering.

Grants of up to £25,000 are available in the first year, and there is the opportunity to apply for second and third year funding of up to £12,500 and £6,250 respectively.

Any constituted voluntary organisation working, or planning to work in Wales, is eligible to apply.

Awards will not normally be made for projects which are eligible for funding from more appropriate Welsh Assembly Government sources.

Applications closed on 31 October 2008. Successful applications will receive funding from April 2009.
