7.4.7 Funding sources for health and social care projects

Overview

This information sheet provides details of sources of funding for organisations that are involved with health and social care and health promotion projects.

In addition to a wide range of independent trust and foundations which specifically identify supporting work in these areas, the Welsh Government directly funds health and social care projects under Section 64 of the Health Service Act 1968 and Section 28 (b) of the National Health Service Act 1977.

Trusts and foundations

Allen Lane Foundation

The Foundation provides grants for voluntary not-for-profit organisations in the UK. Overall, the Foundation wishes to fund work which will make a lasting difference to people's lives rather than simply alleviating the symptoms or current problems, as well as projects that are aimed at reducing isolation, stigma and discrimination and that encourage or enable unpopular groups to share in the life of the whole community. Grants may be used for start-up, core or project costs and generally range from £500 to £15,000. The Foundation makes grants to organisations whose work the Trustees believe to be unpopular such as: refugees and asylum-seekers; black and ethnic minority communities; lesbian, gay and bi-sexual groups; **those experiencing mental health problems**, violence or abuse; offenders and ex-offenders, travellers and older people.

The Baily Thomas Charitable Fund

This registered charity was established primarily to aid the research into **learning disability and the care and relief of those affected by learning disabilities**. Over £1 million is given in grants of £250 and above. Applications will only be considered from voluntary organisations that are registered charities, are associated with a registered charity or from schools or Parent Teacher Associations.

Applications should be submitted by 1 May or 1 October.

Bernard Sunley Charitable Foundation

The Foundation awards grants to a variety of categories including: education; youth; community; environment/conservation; **health and welfare**. Generally grants awarded will range from between £200 and £5,000. Grants will only be made to registered charities including schools in the UK. There is no application form - all submissions should be made in the form of a covering letter to the Director.

The LankellyChase Foundation

The Foundation supports the work of registered charities throughout Great Britain, with the exception of the Greater London area. Its priorities are arts, heritage, breaking the cycle, developing communities, **free and quiet minds**, offenders and society, and for a special limited period refugees and asylum seekers. It supports community initiatives meeting local needs, particularly smaller charities, with only a local or regional remit. It recognises that the black and ethnic minority groups have particular needs and therefore welcomes applications from such organisations. Grants range from £1,000 to £40,000.

Lloyds TSB Foundations for England and Wales

Lloyds TSB Foundation for England and Wales is one of the largest independent funders of the voluntary sector in Wales. It aims to support small to medium charities working to tackle disadvantage.

The Foundation supports local and regional charities with an income up to £1 million. The Foundation's mission is to support and work in partnership with recognised charities that help disadvantaged people to play a fuller role in the community.

The Rank Foundation

The Foundation concentrates exclusively on encouraging and developing leadership amongst young people, supporting disadvantaged young people and those frail or lonely through **old age or disability** and the promotion of Christian principles through film and other media. However, the Foundation does run a small grants programme for unsolicited appeals. General appeals including unsolicited appeals relating to youth educational and community care projects should be addressed to the Leamington Spa office. Information on youth projects specifically initiated by the Foundation can be obtained from the Hebden Bridge office (for England and Wales).

The Yapp Charitable Trust

The Trust makes grants to small charities throughout the UK for a variety of work. The trustees currently receive a very limited number of applications from Wales and they would like to reach more small charities in Wales. The Trust funds categories such as work with: elderly people; children and young people; people with **disabilities or mental health problems**; people trying to overcome problems such as **addiction, abuse**, relationship problems, a history of offending; and lifelong learning. Applicants must have charitable status, have been constituted and operating for at least three years, and a normal turnover of less than £60,000 per year. No grants are given for capital expenditure. Priority for ongoing grants is given to applicants from very small charities.

Comic Relief

Comic Relief was set up in 1984 to help disadvantaged people in the UK and Africa. Funds are raised through activities such as Red Nose Day. Grants are made in the UK to support voluntary organisations to tackle poverty and promote social justice. Comic Relief aims to reach the poorest and most disadvantaged people, to help them find solutions to their problems, to give a voice to people facing discrimination, to increase public awareness, and to support work which influences national, regional and local policies.

Programmes and priorities

Young people and mental health; young people and alcohol; young people abused through prostitution; older people; **mental health**; refugees & asylum seekers; domestic violence and disadvantaged communities.

Hedley Foundation

The Foundation awards grants to registered charities in the UK. The main objective of the Foundation is to support projects concerned with the education, training and **health** and welfare of young people in the UK. It also funds projects providing support for **carers of disabled people and the terminally ill**, and provides funding for the purchase of specialist medical equipment.

The average grant awarded is £3,000. Grants may only be used to cover project costs and may not be used for core, revenue, salary or transport funding.

Welsh Government grants for all Wales voluntary organisations

operating in the health and social care sectors

These projects are traditionally funded under a three-year grant fund programme.

The purpose of this grant funding is to support the core activities of all Wales voluntary organisations in the health and social care sectors for:

- Older People (S64).
- Carers (S64).
- Adults with physical and/or sensory disabilities (S64).
- Adults with Learning Disabilities (S28b).
- Adults with Mental Health problems (S28b).

Separate grant schemes operate for each of the above groups of people.

Overall Objective

The overall objective of the grant schemes is to enable eligible voluntary organisations to help the Wales Government achieve its strategic agenda for people in the above categories as set out in *Wales a Better Country* and other specific Welsh Government strategies such as those for older people, carers and people with learning disabilities.

To be eligible for consideration for this grant, organisations must meet the following criteria:

Must be a voluntary organisation.

Must meet the general criteria as outlined in section 7.2.1 of the manual of Guidance on Voluntary Sector Grants in the Compact between the Welsh Government and the voluntary sector in Wales.

Must be voluntary organisations operating in health and/or social sectors for the categories of people mentioned above.

Must operate on an all-Wales basis. In considering this, the main considerations are how far an organisation:

- Develops local networks (of branches and people) throughout Wales.
- Is represented itself throughout Wales.
- Represents the views of the local organisations to the Welsh Government and other central agencies.
- Is a source of information, expertise, knowledge and training to local organisations located in all areas of Wales.
- Contributes to national policy development.

There are separate Welsh Government grant schemes for each of the categories. Those organisations requiring further information and anticipating submitting

applications under the next round for projects, should, in the first instance, contact the following:

- Older People
Graham Carter 029 2082 3423;

- Carers
Gavin Parry 029 2082 6980;

- Physical/Sensory Disabilities
Steve Gulliford 029 2082 5913;

- Learning Disabilities
Alyson Collins 029 2082 5441;

- Mental Health
Tina Jones 029 2082 5734

Welsh Government health promotion grant schemes

This scheme exists to strengthen health promotion work in Wales. Grants are offered to national voluntary organisations, which can contribute to health promotion and complement national developments in health promotion in Wales.

The last funding round invited applications that responded to Health Challenge Wales:

- Helping to influence conditions necessary for people to lead healthy lives and to improve their lives and to improve their health.
- Helping individuals and groups to do what they can to improve their own health and that of their families.
- Helping to communicate the 'better health' message more effectively.
- Improving the ability of national voluntary and community organisations to engage with the Welsh Government and key partners to develop health promotion policy and practice. This may involve working either individually or collectively with, for example, the National Health Service and local health, social care and well-being partnerships to achieve improved health outcomes in Wales.

The key themes of Health Challenge Wales are:

- Smoking.
- Obesity.
- Accidents and injuries.
- Alcohol and other substance misuse.
- Infections (sexually transmitted; healthcare acquired; vaccine preventable).
- Mental health and well-being.

Details of organisations that have benefited from grant funding and further details on funding rounds and closing dates can be found on the Chief Medical Officer's website (www.cmo.wales.gov.uk).
